Project Overview:

Project Name: Medley Pharma

Project Description: Medley Pharma is a versatile and dynamic software tool designed to simplify the process of creating and managing online forms. It offers drag-and-drop form field customization, flexible design features, data visualization, third-party integration, and robust security, enabling efficient data collection and workflow management.

Project Version: v1.0

Testing Period: 10-Apr-2025 to 15-Apr-2025

Testing Scope:

- Features and Functionalities to be Tested:

  - User registration and authentication
  - Form builder (drag-and-drop functionality)
  - Form customization (themes, fonts, layouts)
  - Validation rules and error handling
  - CAPTCHA and SSL security
  - Form submission and response capture
  - Data visualization (charts, reports)
  - Export of form data (CSV, JSON)
  - Third-party integrations (email notifications)

- User Stories/Requirements to be Tested:

  - As a user, I want to create forms quickly using an intuitive interface
  - As an admin, I want to view and export form submissions
  - As a user, I want customizable fields with validations

- As an organization, I want secure and branded forms
- As a system, I must block spam and unauthorized access
